

D MARRA 2007
SABBATICAL PROJECT – STUDY OF SELECTED NZ COLLEGES’

- (1) **PROPERTY QUALITY OF BUILDINGS**
- (2) **PROPERTY QUALITY OF MAINTENANCE**

Purpose: To examine the Property Quality of Buildings plus the Property Quality of Building Maintenance of St Paul’s College, Ponsonby in comparison with a wide selection of NZ Colleges.

Reason: St Paul’s College, Ponsonby underwent an external Review 2005/2007 as organized by the College Proprietors, the NZ Marist Brothers Trust Board

Within this Review the vast majority of respondents perceived that a very major weakness for families considering enrolling their sons at this college was the poor quality of the aged-buildings.

Methodology:

1. In the period Term 3, (2006) to Term 4(2007), D Marra visited eighty NZ Colleges, to observe these other College’s “Quality of Buildings and Quality of Building Maintenance”
2. During his Sabbatical D Marra collated and analysed his observations.
3. Each College’s “Quality of Buildings and Quality of Building Maintenance” were graded by D Marra from a top grade of “A+” to a lowest grade of “D”.
4. “A” Grade is D Marra’s opinion that such Colleges have reached the absolute top of the “Quality” range for College properties in NZ. “D” Grade is D Marra’s opinion that such College’s are at the absolute bottom of the “Quality” range for College Properties in NZ.
5. Each College received two grades:
 - One of these “Grades” was for the “Quality of the Colleges Buildings”
 - A second “Grade” was for the “Quality of the Maintenance of the Colleges Buildings”
6. The Grades were allocated via D Marra’s personal opinion of what he observed at first hand.

Thus while this personal opinion factor has no scientific / quantitative basis it does carry a qualitative value based on D Marra’s 47 years of property experience in agricultural, retail, residential, and educational sectors.

This qualitative value is also backed by D Marra’s previous visitations to Colleges throughout Australasia, Asia, Europe, South America, and the South Pacific Islands.
7. Grades were then collated onto the attached Charts.
 - The numbers 1 to 80 refer to the Identification Number allocated by D Marra to each College.
 - College names are listed on the right hand side of the Grade Charts.
 - It is understood that under no circumstances are the Colleges’ names to be publicized outside of St Paul’s College, Ponsonby.
 - On the Charts the numbers “asterixed” indicate a decile 1 to 3 College.

Summary Conclusions

- (A) Property Quality of Building Maintenance
does not appear to be solely connected to College type.
Eg. 1) Not all Private Colleges are top Quality Maintained
 2) Not all higher decile State and Integrated Colleges are Top
 Quality Maintained.
 3) Top Quality Management of Maintenance / Financial resources
 varies from College to College and is not rigidly reliant on
 College type factors.
 4) Many less well off Colleges are very proudly maintained by what
 appears to be good community management driven by the local
 BOT's.
 Fortunately St Paul's College, Ponsonby appears to be one of
 these.
- (B) Property Quality of Buildings also appears to be well driven at most types of
Colleges eg:
- 1) Private Colleges generally have well-endowed high quality buildings
although not all are so.
 - 2) Integrated Colleges in the upper Deciles and / or with active
Proprietor/Community financial resourcing are also well-endowed with
high quality buildings.
 - 3) State Colleges in the upper Deciles and upper roll numbers of "Super"
Colleges by size are also well-endowed with Ministry backed high-
quality buildings.
 - 4) AIMHI type of Colleges also show up as having greatly improved
Ministry-backed high quality buildings.
 - 5) From this project covering eighty Colleges only Saint Paul's College,
Ponsonby was graded "D" for the Quality of College Buildings. (i.e as
opposed to the maintenance in conclusion "a" above)

Thus from this "Property Examination" of eighty Colleges, Saint Paul's College, Ponsonby has maintained its Property very well, but the quality of Saint Paul's College's Buildings is lagging well behind this field of Colleges.

In the present NZ Education market place such an inherent historical weakness is preventing this College from competing in our present commercially cannibalistic world.
